

## VITI AUTOFORANTI

per lamiere sovrapposte in acciaio, testa a rondella esagonale, acciaio inossidabile AISI 304-TS

### STITCHING SCREWS

for steel sheets overlapping  
 hexagonal washer head, AISI 304-TS stainless steel

### SELBSTBOHRENDE BLECHSCHRAUBEN

zur Befestigung von Blechen und für Überlappungen Sechskantkopf, Edelstahl AISI 304-TS

#### TYPE: WKF (HS3H-GW)

| d × L (mm)                                                                                                                |  | index         |  |  |
|---------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|---------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
| Acc  $\Sigma ti$ [mm] 2 × 0,5 – 2 × 1,25 |                                                                                   |               |                                                                                   |                                                                                   |

## VITI AUTOFORANTI

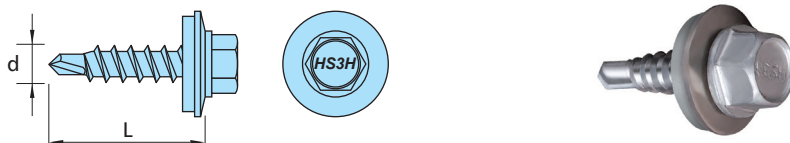

per lamiere sovrapposte, testa a rondella esagonale, acciaio inossidabile AISI 304-TS con rondella in acciaio inox/EPDM

### STITCHING SCREWS

for steel sheets overlapping  
 hexagonal washer head, AISI 304-TS stainless steel with bonded stainless steel/EPDM washer assembled

### SELBSTBOHRENDE BLECHSCHRAUBEN

zur Befestigung von Blechen und für Überlappungen Sechskantkopf, Edelstahl AISI 304-TS mit EPDM/Edelstahl-Dichtscheibe
